

part time CFOs & Accountants who work remotely

Acctus is at the forefront of today's new world of work, offering companies high calibre CFOs, Finance Directors and Accountants who work remotely on cost effective and flexible hourly rates, using Zoom, Teams and Slack.

### Five typical Acctus client scenarios

- 1. The part time CFO.** Dynamic SME, turnover R25 mil to R500 mil, does not need, or can't afford, a full time CFO yet. Hires an experienced part time CFO through Acctus to commit from 5 to 15 hours a week at R750 / \$50 per hour. Works alongside the MD as a strategic partner while leading the finance team professionally. **Total cost from R15,000 / \$1,000 per month.**
- 2. The techie.** Dynamic, high growth tech start-up gets an excellent tech savvy FD with relevant experience at R1,200 / \$80 per hour to assist with investor relations and business plans, attend investor meetings, embed required accounting disciplines, train and mentor staff. 4 to 6 hours per week. **Under R25,000 / \$1,600 per month.**
- 3. The monthender.** Without having to employ an additional CA, this successful R250 mil company hires an experienced hands on CA to assist with month end deadlines and reports. Final week of each month, 25 hours per month. **At R800 / \$53 per hour, total cost R20,000 / \$1,400 per month.**
- 4. The audit buster.** Established R500 mil company hires 2 experienced, ex Big 4 CAs from Acctus for 4 weeks to assist with legwork prior to end year audit. 2 x CAs x 30 hours per week at R825 / \$55 per hour. **Approximately 240 billed hours at a significant discount to normal Big 4 rates, saving over R200,000 / \$14,000.**
- 5. The consultant.** Used to paying between R2,500 / \$167 and R3,500 / \$233 per hour for a management consultant from a well-known large provider, this company secures a high calibre contractor with all the required skills from Acctus for R1,500 / \$100 per hour. **Assuming 150 hours for the project, the total cost is R225,000 / \$15,000 - more than halving the cost and saving in excess of R250,000 / \$16,600 on a project which would have cost R500,000 / \$33,300 otherwise.**

### How does it work? The highly cost effective Acctus business model.

- ✓ **Quality.** All of our high calibre contractors have been screened, vetted and interviewed, with reference checks undertaken before an assignment starts.
- ✓ **Flexibility and control.** Daily reporting on hours worked gives the client maximum flexibility and control.
- ✓ **No payroll commitments.** Acctus invoices the client and pays the contractor for hours worked.
- ✓ **Transparent.** Acctus always discloses the client and contractor rates to both parties.
- ✓ **Ethical.** Acctus never takes more than 20% of the client rate, so at least 80% goes directly back to the contractor.
- ✓ **No notice period.** Clients are able to terminate without giving notice to ensure optimal satisfaction and value.
- ✓ **Cost effective.** Rates for a high calibre accountant start from R600 / \$40 per hour.
