

part time CFOs for growing businesses

Acctus provides part time CFOs to companies who do not need, or cannot afford, a full time CFO yet. Our part time CFOs work remotely or on site, on flexible and cost effective hourly rates.

### Client benefits of the Acctus solution

- ✓ **Flexibility.** The number of hours worked is totally flexible, dependent on your requirements and budget.
- ✓ **Control.** With daily or weekly reporting of hours worked, the client remains in control and only pays for actual hours worked.
- ✓ **An off-payroll solution.** The part time CFO is not taken onto the client payroll, Acctus invoices the client and Acctus pays the CFO.
- ✓ **Minimal risk.** The client may terminate an assignment without giving notice if they are not 100% satisfied.
- ✓ **Transparency.** We always disclose the client and the contractor rates to both parties and Acctus never takes more than 25% of the client rate, with at least 75% going directly back to the contractor.

### Today's new world of work

When appropriate, our Acctus CFOs are able to work remotely using technologies like Zoom, Teams or Slack, ensuring that the client is able to tap into the very best possible experience and skills for their specific requirements, irrespective of geographical location.

### How a CFO from Acctus could help your company - five typical client scenarios

- 1. The strategic sounding board.** The CEO of a successful young company is working 60 hour weeks, often feeling stressed and lonely. She hires a highly commercial CFO from Acctus who listens, gives feedback and challenges her plans, providing her with vital strategic input.
- 2. The monthender.** Sales are growing rapidly at this online retailer, helped by the current trend to home shopping. The CEO hires a part time CFO from Acctus to lead the finance team to the next level of professionalism, achieving key monthly deadlines and producing excellent management reports.
- 3. The investor expert.** A successful Fintech company is looking to raise finance to buy a competitor. A tech savvy Acctus CFO with strong investor experience outlines strategic financing options, writes a business plan, assists with due diligence and makes investor presentations alongside the CEO.
- 4. The information guru.** The CEO of this dynamic agri business is finding it increasingly difficult to extract strategic business information from his accounting department. A BI expert from Acctus implements an improved accounting system with excellent management reports and dashboards.
- 5. The Pan Africanist.** An established food wholesaler is experiencing exponential growth in Ghana and Nigeria. Acting as a consultant, an outstanding Group CFO from Acctus with over 10 years commercial experience across Africa, provides invaluable insights to highlight opportunities and pitfalls.

"With over 25 years experience in financial recruitment and business in South Africa, Ireland and the UK, I believe that Acctus is ideally qualified to find you the best part time CFO for your specific requirements."
